

## MEAN Stack Workshop

Mar 29, 2017

*Saturday, April 1st, 12 o'clock - Room 316 Organized by IBU ACM & ACM-W Student Chapter*

Want to make a MEAN looking web application? Then you're at the right place! Join us on Saturday, the 1st of April at 12 o'clock, in Lab 316, 3rd floor, for a MEAN stack workshop held by an software developer and lecturer Adnan Rahic.

What is a MEAN stack?

MEAN is a JavaScript development stack that helps you build fast, robust, and maintainable production web applications using MongoDB, Express, AngularJS, and Node.js.

How can I join?

Send us an email @ [acmcompete@gmail.com](mailto:acmcompete@gmail.com) or contact Haris Muhibic in a private message on FB. We have a limited number of participants (24 PARTICIPANTS ONLY), so the principle is first come, first serve. Cancellation must be provided at least three days before the event.

See you there!
